Internship

Cyber Security Intern

June 2025 – July 2025

Orbit Techsol Pvt. Ltd.

- Configured Core Network Services: Applied DHCP, NAT, STP, VTP, and VLANs to configure switch/router setups; ensured network stability by troubleshooting connectivity issues via routing and interface analysis.
- Analyzed Network Security Impact: Used Wireshark for packet-level troubleshooting and documented all configurations, analyzing their direct impact on network security and overall system behavior.

Projects

OSINT Investigation Tasks (Practical Work)

November 2025

- Investigated usernames, emails, and phone numbers to uncover digital footprints, breached credentials, and online activity patterns.
- Used Google Dorking, metadata extraction, and SOCMINT techniques to collect public information ethically and organize findings.
- Created structured reports summarizing leads, data sources, and relevant traces useful for case understanding and verification.

In-Memory Malware Detection & Analysis|Volatility2

October 2025

- Led Advanced Memory Forensics: Used Volatility2 with malfind and lsrmmod to identify sophisticated evasion, including a missing PPID (indicating PID spoofing/cleanup) and a payload masquerading as IXPLORE, confirming DLL Injection for concealment.
- Delivered Actionable Intelligence (IOCs): Verified malware hashes via VirusTotal (low detection scores) and generated a 7-page post-mortem report detailing the full infection chain and Indicators of Compromise (IOCs) for security tool implementation.

Project: EnDecoder Custom Encryption Tool (Group Project)| Flask, AES, RSA, Caesar Cipher, APIs

July 2024

- Spearheaded the design and implementation of the AES and RSA encryption algorithms, serving as the technical lead for these core components.
- Supported the team on broader project tasks, ensuring successful integration.
- GitHub Repository Link: <https://github.com/manyajain12212367/EnDecoder.git>

Certifications

Pre – Security

June 2025

Try Hack Me — <https://tryhackme-certificates.s3-eu-west-1.amazonaws.com/THM-VM57EKBTVV.pdf>

Cyber Security

July 2024

CypherSchools — <https://www.cipherschools.com/certificate/preview?id=66d19a7cfebc00f799f4f850>

Technical Skills

Languages: Python, Java Basics, C

Technical Skills: Wireshark, Cisco Packet Tracer, GitHub, Cryptography Fundamentals, Networking Concepts, Memory Analysis (Basics), Steganography, OSINT, Linux Commands

Skills: Communication, Documentation, Reporting, Team Collaboration, Analytical Thinking

Education

Lovely Professional University Punjab

2022 - Present

Computer Science and Engineering — CGPA: 7.34

Jalandhar, Punjab

Sachdeva Millennium School

2020 – 2022

12th with Science — Percentage: 68.4%

Agra, Uttar Pradesh

Sachdeva Millennium School

2018 – 2020

10th with Science — Percentage: 85.6%

Agra, Uttar Pradesh

Extracurriculars

Scriptwriter & Director – Street Play (Nukkad Natak), Talent Fest “Spectra”

November 2023

- Authored, Directed, and Performed as a lead in a street play ("Nukkad Natak") that secured 3rd place out of over 20 competing entries at the university's annual cultural fest.
- Led an eight-member production team, coordinating all creative and logistical phases from initial scriptwriting to rehearsal management and final stage performance.
